

SELF-PRIMING JET PUMPS

JSWM

Range of performance

Flow rate: max 50 L/min (3m³/h)
Head: max 70m

Limits of use

Suction lift: max 7m
Liquid temperature: 40°C
Ambient temperature: 40°C

Uses and installations

This range is recommended for pumping clean water without abrasive particles and liquids that are chemically non aggressive for the materials of which the pump is made. Due to their reliability, simplicity of use and economy, they are suitable for domestic use, irrigation applications and specifically for the extraction of water from well points. The pump must be installed under a vented cover and protected against exposure to rain or water spray.

Construction Characteristics

Pump Body: Cast Iron
Impeller: Brass
Motor Shaft: Stainless Steel 304
Mechanical Seal: Ceramic-graphite
Electric Motor: Single-phase 230V - 50Hz with capacitor and thermal overload protector.
CP: three-phase 380/400v - 50Hz
Insulation: Class b
Protection: IP 44

Diagram
