

TWIN STAGE PUMPS

2CPM

Range of performance

Flow rate: max 180 L/min
(10.8m³/h)

Head: max 70m

Limits of use

Suction lift: max 7m

Liquid temperature: 60°C

Environmental temperature: 40°C

Uses and installations

They are recommended for pumping clean water without abrasive particles and liquids that are chemically non aggressive for the materials of which the pump is made. The high head and adaptability to the most varied, even unusual applications make them the ideal choice in the domestic, civil and industrial field and specifically for increase pressure in the mains for fire-fighting sets. The pump must be installed under a vented cover and protected against exposure to rain or water spray.

Construction Characteristics

Pump Body: Cast Iron

Impellers: Brass / Brass

Motor Shaft: Stainless Steel 304

Mechanical Seal: Ceramic-graphite

Electric Motor: Single-phase 230V - 50Hz with capacitor and thermal overload protector.

CP: three-phase 380/400v -50Hz

Insulation: Class F

Protection: IP 44
